

METHOD AND SYSTEM FOR IMAGE SHARING BASED ON FACES IN AN IMAGE

ABSTRACT OF THE DISCLOSURE

A method and system for image sharing based upon faces in an image is disclosed. The method for image sharing based upon faces in an image comprises defining a sharing rule defining with which one or more recipients images are shared based on face identifying information, and applying face identifying information associated with the image to the sharing rule to determine the one or more recipients with which the image should be shared. The system for image sharing based on faces in an image comprises a sharing rule defining with which one or more recipients images are shared based on face identifying information, and a sharing engine to apply face identifying information associated with an image to the sharing rule to determine the one or more recipients with which the image should be shared.
